

CHIEF NUCLEAR MEDICINE TECHNOLOGIST

Location – Sydney Adventist Hospital

An opportunity exists for a motivated and energetic person to join our dynamic team. The Sydney Adventist Hospital, fondly known as the SAN, is a not-for-profit private hospital located on Sydney's North Shore.

Sydney Adventist Hospital with capacity for over 550 licensed overnight beds is an acute care private hospital, offering acute medical, surgical and obstetric care, including complex cardiac and orthopaedic procedures. We are quite unique for a private hospital as we also provide emergency care diagnostic and interventional services. Our focus is on providing referrers and patients with a high quality, customer focused comprehensive imaging service.

The successful applicant will join our team as chief nuclear medicine technologist, responsible for the daily management of nuclear medicine and PET CT. This is a great opportunity to lead and grow imaging and therapeutic services at the SAN. The successful applicant will be welcomed into our senior management team and be responsible for the successful integration of Northern Nuclear Medicine with San Radiology.

SELECTION CRITERIA

Essential

- AHPRA Registration
- NSW EPA Radiation Operator's Licence
- Experience in a Nuclear Medicine management role for at least two years
- Demonstrated ability to problem-solve and set priorities
- Demonstrated competence using Information Technology tools
