A division of **Adventist HealthCare** Limited ABN 76 096 452 925

0117/MPR/1013/PR

Sydney Adventist Hospital, known as **The San**, is a not-for-profit Christian hospital that has been caring for the community's health needs since 1903.

With more than 500 beds, including 360 registered overnight beds; the San, located on Sydney's leafy Upper North Shore, is NSW's largest single-campus private hospital. In 2006, the San was awarded the prestigious Australian Private Hospitals Association Award for clinical excellence recognising the San as Australia's Top Private Hospital.\*

With a long-standing reputation for excellence in health and medical care the San offers a broad range of acute medical, surgical, diagnostic, outpatient, support and wellness services.

Our philosophy of Healthcare is based around providing care for the whole person – physical, mental and spiritual, in an Adventist Christian Healthcare environment. We are renowned for the compassionate care provided to our patients, in modern world-class facilities.

Each year more than 2,300 staff and 750 accredited medical practitioners at the San care for over 53,000 inpatients and more than 180,000 outpatients – including approximately 2,000 babies delivered and 20,000 patients treated in our private emergency care facility.

Sydney Adventist Hospital is a division of Adventist HealthCare Limited. Adventist HealthCare Limited (formerly known as 'Sydney Adventist Hospital Limited'), is owned by the Seventh-day Adventist Church, and is a 'Not-For-Profit' organisation that operates a number of healthcare businesses including: Sydney Adventist Hospital, Dalcross Adventist Hospital, San Day Surgery Hornsby, and San Diagnostics & Pharmacy.

\*Over 70 beds.

## KEY SERVICES INCLUDE:

### Cardiac Care

The San was the first private hospital in Australia to offer a fully integrated cardiac surgery and catheterisation program. San cardiac services include: cardiac surgery, 24/7 emergency stenting and angiography, Coronary Care Unit, diagnostic services including cardiac CT, Chest Pain Hotline, Cardiac Rehabilitation and Zipper & Stent support club.

### Maternity and Women's Health

Delivering approximately 2,000 babies each year, the Maternity Unit offers private ensuite rooms and spa delivery suites, Special Care and Well-baby nurseries, pre and post natal education and exercise classes, as well as a Lactation Specialist and specialised ultrasound services. The San also offers a range of Women's Health services including Breast Surgery, Gynaecology & Diagnostic Services.

### Cancer Services

The San supports a multidisciplinary team approach to cancer care in order to provide comprehensive and individual support to cancer patients. Our range of services include: extensive diagnostic facilities, acute surgical and medical services, chemotherapy and day treatment unit, palliative care, radiation therapy, clinical trials unit, physiotherapy and exercise programs as well as our Cancer Support and Education Centre and the new Cancer Council Information Centre.

## Urology

A full range of diagnostic, surgical and medical urology services for both men and women is offered at the hospital, including robotic surgery, lithotripsy, laser and ultrasound treatment.

## Orthopaedics

Our highly regarded orthopaedic service includes: diagnostic facilities, surgical, medical and physiotherapy with rehabilitative services.

## General Surgical and Medical

The San offers a wide range of general surgery and medical services.

## Diagnostic Services

Our comprehensive state-of-the-art diagnostic services for inpatients & outpatients include Radiology, Pathology, Ultrasound for Women, Nuclear Medicine and Breast Screening (Breastscreen NSW).

## Health, Wellness and Support Services

The San also offers preventative and rehabilitative health services, Physiotherapy and Hydrotherapy, Dietitian Services, Wound Care Clinic, Pharmacy, and on-site family Medical and Dental Centre including comprehensive health assessments.

## Other Services and Facilities

- Hospital In The Home (HITH) – acute hospital care for appropriate patients in their own residence.
- San Clinic – on-site Specialist Medical Centre, housing approximately 100 specialists.
- Jacaranda Lodge – on-site low cost accommodation for patients and their families.
- Australasian Research Institute – conducting research onsite in new purpose-built facilities.
- Clinical Education Centre housing the Avondale College of Higher Education Faculty of Nursing & Health and the Sydney Adventist Hospital Clinical School (SAHCS) of The University of Sydney, which offers clinical training placements for medical, physiotherapy, pharmacy and other allied health profession students. The Education Centre was made possible by funding from the Commonwealth through Health Workforce Australia, The NSW State Government and private philanthropy.
- Open Heart International – providing medical care & education to underdeveloped areas throughout the Asia Pacific Region.

## OUR MISSION: CHRISTIANITY IN ACTION

Caring for the body, mind & spirit of our patients, colleagues, community and ourselves.
